

REMARKS

Reconsideration and allowance are respectfully requested.

The specification has been amended to both incorporate the proper headings under rule 37 CFR 1.97 and to correct informalities specified in the action.

The attached Figure 1 has been corrected to replace reference character "115" with "151", and to incorporate reference characters 136, 116 and 130 as requested.

We acknowledge with thanks the indication of allowable subject matter in claims 39 and 41-42. Claim 39 has been rewritten in independent form as shown in currently amended claim 1 and the remaining claims are dependent upon allowable currently amended claim 1. It should be noted that previously withdrawn original claim 40 was intended to be dependent upon elected original claim 39. Therefore, claim 40 has been amended to be dependent upon currently amended claim 1, which includes the language of original claim 39.

Entry of this amendment is solicited, is believed appropriate, and is believed to distinguish the invention from the cited references. For the foregoing reasons, reconsideration and allowance are believed in order and are solicited.

Respectfully submitted,

W. Warren Taltavull
